COAST ITEMS.

The agricultural prospects of Sono never were better.

Vallejo is sending numerous recruits to the Murphy brigade, colors, blue.

The Workingmen's party have organized a strong branch in Redwood City.

San Diego had 8.44 inches of rain for the season up to the 16th. Feed plentiful.

The Workingmen of Stockton held a mass meeting at National Hall on the 16th.

The American river at Folsom on the evening of the 17th was 15 feet above low water mark.

The verdict of not guilty, in the Cahill murder case, at Stockton on the 16th, was a general surprise.

Very high wind and rain at Knight's Landing on the 17th. Same day it snowed heavily and rained at Emigrant Gap.

News reached Sacramento on the 17th, that the California and Oregon Railroad had been washed out above Tehama.

Two large frame buildings were burned to the ground in Bodie, Mono county, Cal., on the 13th. Loss \$10,000, covered by insurance.

Los Angeles has taken preliminary steps to organize a workingmen's branch association. J. S. Hayward addressed the meeting.

S. C. Farnham, of Vallejo, has bought the Bernard Block, the finest building in Vallejo, from the Hibernia Bank, San Francisco.

Kearney and Wellock have been stumping Santa Clara county for the Workingmen's candidate, holding meetings at all the towns.

Bodie district reports rapid mining developments, but the weather is very unfavorable, heavy snow storms, accompanied by severe gales, prevailing.

San Benito county has thrown off its apathy, the Workingmen having organized at Hollister. About 225 names are on the roll. The greatest enthusiasm prevails.

Red Bluff reported 38 inches rainfall for the season on the 17th. The Sacramento river at Redding on that day was 25 feet above low water mark and rising very fast at three p. m. on the 17th.

The Assembly Committee on Debts had a session at Marysville on the 16th. It was proved that the tailings from the mines have filled the river bed from fifteen to twenty feet during the past twenty years and almost entirely destroyed about 12,000 acres of farming lands in Yuba county.

Jackson, Amador county, has suffered greatly from floods. One-half of Chinatown, on the North fork of Jackson creek, is swept off, and many buildings on the Middle fork. Eight Chinamen and two women are known to be drowned. Some fifteen buildings have been swept away. This flood was caused by the heavy rain of the 17th.

A branch of the Workingmen's party has been organized at Kernville, and numbers 150. It was resolved that from and after the 20th instant the members pledge themselves from using products of any kind which are produced by Chinese; and from and after March 15th the members pledge themselves to refrain from dealing in any shape or form with persons who employ Chinese.

Fresno has stepped into the line and organized a branch of the Workingmen's party. A platform was adopted denouncing monopolies, land stealing and Chinese servile labor. A free press and freedom of discussion are demanded. The workingmen of Fresno likewise demand that malfeasance in office be made a penal offense, punishable with imprisonment, without intervention of the pardoning power.

The Naval Academy—There are ninety-six vacancies to fill in the Naval academy at Annapolis, for which the applicants are a little more plentiful than can be numbered. No boy ought to present himself for admission without having previously undergone thorough mental training, for should he even pass the ordeal of an examination, the chances are three to one against his being able to get through with the course. Formerly the course was four years, but a late law makes it six.

The class which leaves the Academy this season to spend two years at sea numbers only thirty-five. Four years ago it was 118. Here is an ominous hint to aspirants after Academic honors. Better remain a landsman than run the risk of failing in an examination, or being requested to resign from the Academy after having been in it for one, two, or three years.—*Rio Vista Enterprise*.

OUR Eureka correspondent, after saying a number of pleasant things in approaching the subject, nominates the *Enterprise* as the next Republican candidate for Governor. Without giving the matter much reflection, we are disposed to admit that a better choice could not be made.—*Enterprise*.

NEWS OF THE MORNING.

Cardinal Pecci has been elected Pope. He is an Italian, aged 68, and will take the name of Leo XIII.

Dr. Linderman thinks the mints can coin \$8,000,000 a month, silver.

Silver in London yesterday 54 $\frac{1}{4}$ d.

The European Congress will meet soon.

The U. S. Marshal of Utah, Wm. Nelson, has resigned.

The Black Hills Miners' Union have notified mine owners that if wages are not raised from \$2.50 to \$3.50, they will strike. Trouble is feared.

A rumor comes from the Hague that the King of Holland thinks of abdicating in favor of the Prince of Orange, his oldest son.

A dispatch from Havana states that the peace conditions proposed by the Spanish have been accepted by the insurgent generals, and that permanent peace is now considered assured.

ORANGE TREES.

We have often wondered why so little attention was given to planting orange trees in Nevada, especially around Carson and RENO, where we should think the orange could be made productive. What particularly brings this to our mind is the annexed article from the San Francisco *Bulletin*:

SENATOR JONES.

It is the occasion which brings forth the man, says the Sacramento *Bee*. "J. P. Jones in California was a politician pure and simple, shrewd and keen, but still never rising above party conventions and party triumphs. But in the Senate of the United States he has shown himself in his true colors. Politics he has ignored, party spleen affects him not and he has kept aloof from party quarrels. His naturing energy and active brain have been consecrated to the amelioration of the people and the sundering of the fetters which have been riveted on their hands by the bankers and gold rings. Like another Sampson he has grasped the pillars of the Philistine temple, and the structure tottered to its fall; but, unlike Sampson, he escaped not only unharmed but strengthened by the task. He entered the Senate as a politician; his first term draws to a close and the people acknowledge him a statesman with few peers and probably no superiors. Jones is a thinker and a worker, a Colossus of intellect and labor. The people of Nevada owe it as a duty to themselves and to the coast generally to see that he is re-elected. His was the master mind that placed silver in her rightful position; his should be the one that should raise her bright and beautiful sister, greenbacks, side by side with the golden bally that has so long domineered the land. Place him again in the council hall of the nation, and let the white plume of this modern Henry of Navarre wave the people and the people's stand on to victory."

THE PACIFIC COAST MINERAL EXHIBIT AT PARIS.

The embarrassment which it was feared would result from the failure of the California Legislature to make provision for the representation of California at the Paris Exhibition has been relieved, so far as the exhibition of a cabinet of minerals is concerned, by the action of John W. Mackay of the bonanza firm, who agrees to foot all necessary expenses. The Committee having in charge the collection of a cabinet of the Pacific Coast Minerals for exhibition in the Paris Exposition, had almost come to the conclusion to abandon the work owing to the failure of the Legislature to make an appropriation covering the expense, when they received a dispatch from Mr. Mackay telling them to go ahead. Through Mr. Mackay's generosity, the Pacific Coast will be creditably represented in the Mineral Department of the World's Fair at Paris. The *Bulletin* says about it:

J. W. Mackay telegraphs from Virginia City to the Committee having charge of the mineral exhibit, to proceed with the collection, as he will pay all the expenses. The mineral exhibit is therefore assured. One public-spirited citizen has been found who was willing to step to the front and say that it should not fail for lack of money. The Committee have no time to lose. Let the exhibit be a complete one, not only of California, but of all the States and Territories comprising the Pacific Coast. Let Arizona and Nevada, California and Oregon, Washington Territory, and if possible Alaska, be represented. Silver, gold, copper, tin, lead, borax, sulphur, iron and the whole catalogue of minerals. The Committee, having now no further anxiety about funds, can give all their attention to the business of collecting and arranging specimens. If samples which are now on their way from Arizona have been stopped, let them come along. This private munificence ought to insure such a mineral exhibit as was never before made in behalf of the Pacific Coast.

SAN FRANCISCO.

"Longley's Directory" for 1878 has been issued, and shows San Francisco to have a population of over three hundred and eight thousand, a gain of over seven thousand for the year 1877. Twelve hundred and fifty buildings were erected during that period. The indications for the year 1878 promise to at least maintain the figures of the past year. The building associations have fully as much construction in progress, and the demand for residences is improving, sales in all cases being readily effected. The Western Addition is still the more favored locality, the Mission Addition ranking next.

The banks have still further reduced the rate of interest, money in large sums being now obtainable at 7 per cent., and it is expected that the volume of money loaned on mortgages will fully equal those of the past year, which was the largest ever known to the city. This fact, in conjunction with the present cheapness of materials, must operate as a great stimulus upon the work of the coming year. San Francisco has the brightest future before her of any city in the country.

THE MEAT SHIPPING COMPANY. This company, whose extensive works I gave the readers of the *Tribune* a description of in my last letter, mean business. They have purchased several additional refrigerator cars of late and are daily shipping large quantities of dressed beef to San Francisco. The meat arrives at its destination in splendid condition, and sells readily in the city markets. In time this enterprise will prove to be of incalculable benefit to this part of the State.

THE TIMES-REVIEW wants a bank in Tuscarora, and says: No place in the State presents a better field than Tuscarora for a capitalist to engage in the banking business. All of our mining companies pay in checks, and there is frequently much inconvenience experienced in getting the coin for them. Here is a first class opportunity for a banker, and we hope to see some one embrace it.

ACCORDING to a correspondent of the *Republican*, one of the lumber companies near Frakes has been called on by the United States authorities to pay \$28,000 for timber cut on Government land.

HATCH EXTINGUISHES THE TYBO "SUN."

Taylor, of the *Sun*, having nominated A. J. Hatch, of Reno, as a candidate for Governor on the Workingmen's ticket, Mr. Hatch replies as follows:

"William B. Taylor, of the Tybo *Sun*, was a bright lad, a very genius. I knew him well; we played marbles together on the banks of the Susquehanna nearly half a century ago. We were good little boys then and went to school together and received instructions in the use of the beech and hickory from the same master. We swam up and down the Susquehanna in Summer and coasted down the eastern slope of the Alleghanies in Winter. Bill, as a boy, was a great worker; he used to work hard to gather the cherries and apples from my father's orchard, often before they were ripe. He was at it early and late, but he generally rested during the day time. Many a hole, as large as a good sized watermelon, has he worked through my uncle's high board garden fence, but nobody ever saw him roll any watermelons through them—in the daytime. But as I have said he was a worker, he grew up a worker, a horny-handed son of Toil, and finally became the champion of the great Workingmen's Party away out on the great American Desert in the wilds of Southeastern Nevada. The workingmen of that section must needs have a Governor. William the Workist has been tendered the nomination, but William scorns to accept the honors so liberally thrust upon him and would fain shirk the responsibility and throw it upon the shoulders of his chum of the olden time. But know ye, William the Workist, that thy chum of the Alleghanies hath abiding faith in President Hayes and the time honored principles of the Republican party to which all good workingmen belong. And now, that there is no longer gold for the rich and silver for the poor, but gold and silver alike for both, capital and labor may unite as of old and prosperity and progress again assert their sway.

No, William the Workist, none of that kind of work for me; my work is on the old Republican road which is now being so thoroughly repaired and all obstacles are being so effectively removed that every laborer in the land may pass safely over it, even to the goal of ample reward for honest labor.

Finally, William of the Horn Hand, Cincinnatus of Tybo, chum of my youth, let me conjure thee, follow thy strange phantom no longer, but return to thy first love, else the toiling millions of Duckwater and Carrant Creek may have cause to doubt thy sanity, and thy chum of the olden time to exclaim in the language of Hamlet, "Get thee to a nunnery, Git!"

MRS. HAYES.

Mrs. Hayes employs no hair-dresser

to artistically bang her front hair

and puff the remainder on top of her head. She seems to have a fine suit of hair, which is neatly arranged in a coil at the back of her head; her front hair is brought down upon her cheeks, covering the temples, and fastened just behind her ears. It will soon be twenty-five years since Lucy Webb, rather against the wishes of her parents, married Ruth Hayes. She won his heart with her hair worn just as it is now; and she will not risk its loss by any change. It distinguishes her from other women. Mrs. Hayes wore no ornaments until recently she has been seen with a very handsome, new-looking gold necklace. She does not wear ear rings or brooch. She is a sincere Methodist Christian, and seems to belong to that old fashioned portion of the church which requires simplicity of dress, and would be horrified at Dr. Newman, who would appear at receptions with a French folded hat under his arm, and invite ladies to drink wine with him. Mrs. Newman, dressed in black velvet, with point-lace shawl, and she too has diamonds.

The President and Mrs. Hayes have kept clear of the Metropolitan, and attend the Foundry Church, which is quite near the White House, and does not necessitate the use of the carriage on Sunday. The family walk to church, and Mrs. Hayes, who has a good voice, joins in the singing. As this is the only cultivation her voice ever had, she does not call herself musical, but shows her appreciation of good music when prima donnas call upon her at the Executive Mansion.

RICES POSTPONED.

The week's racing programme, which was to have begun in Sacramento on Tuesday, has been postponed until further notice, the track being too soft;

but the Mollie McCarty and Jake race for \$2750 will take place on the 22d,

if a good day and track.

WASHOE POLITICS.

"Reno" writes as follows to the *Carson Tribune* about the political rumors now afloat here:

It is conceded by all parties here that J. C. Hagerman will carry the Democratic primaries for Governor. Hagerman is well liked, and is noted for his energy and public spirit. There is no doubt, if he secures the nomination, he will make a good run. On the Republican side it is thought that C. C. Batterman will get away with the primaries of that party, although Kinckee has many strong adherents in Washoe.

The Republicans of this county are making a move to secure the Judgeship of the Second Judicial District, which

comprises the counties of Washoe, Ormsby and Douglas. They claim

that they are justly entitled to the

position, as Ormsby has had it for

two terms and Washoe is the second

county in the State in wealth and

population. Who the Republicans

of this county will favor for the

place I do not know, but rumor has

it that Judge I. B. Marshall, of Reno,

is a candidate backed by a powerful

influence. The Judge is a lawyer of

marked ability, a genial and clever

man, one of Washoe's best citizens,

and would make an excellent Judge.

It may be well to state that a report

is in circulation here that Judge C.

N. Harris, of your place, will contest

for the prize. I merely give

these rumors for what they are worth;

cannot vouch for the truth of them.

The Reno *JOURNAL* learns by a private letter from Representative Wren that the Chinese question is fast taking definite shape amongst members of Congress. "The feeling is decided," he writes, "that immigration from China shall be restricted within the narrowest possible limits, without interfering with our commercial intercourse with China." Mr. Wren is in full accord with the prevailing sentiment of the people of this coast on the Chinese question, and will do all in his power to remedy the great evil. He is serving his constituents with fidelity and deserves praise for it.—*Elko Post*.

Indictments Found by the United States Grand Jury of California.

The United States Grand Jury made a partial report to the Circuit Court in San Francisco on last Thursday of indictments against the following persons for cutting timber and removing the same from Government lands: Oliver Lonkey, E. R. Smith, A. W. Sisson, W. H. Wallace, Clark W. Crocker, H. W. Roberts, C. A. Bragg, G. N. Folsom, J. D. Lorn, H. Bragg, Warren Richardson, G. R. Richardson, N. J. Martin, J. J. Friend, W. E. Terry, L. A. Doan, E. Brickell, W. H. Kruger, E. Chapman. The aggregate number of trees alleged to have been destroyed by these defendants is 33,015 in Nevada county and 1,800 in Sierra county, having an average value of \$2 each.

To Dress Well.

To dress well it is only necessary to have a small amount of money and a little common sense, as at Cohn & Isaacs' may be found goods to suit all complexions and all styles of beauty. Their goods, too, are well made and substantial in fabric. They have a very large stock of the best overcoats made, and whole car-loads of the finest and warmest of under clothing. Those who want dress suits may find them at Cohn & Isaacs', that are as fine as though made to order, and as for getting a fit, their stock is so extensive that they can always find that which is exactly the thing for any man of ordinary mold. They never send a man out of their establishment with a pretended fit; they take pains to see that he is fitted, and well fitted, before he leaves. As for the prices, those who try this firm will find that all is sold at the lowest possible figure. This has been their way of doing business ever since they opened in town and made Reno hewl on account of the low rates at which they sold goods.

Passenger Train.

The Overland, Lightning and Emigrant trains were consolidated for yesterday's trip and arrived here at 9 o'clock, somewhat behind time. This consolidation was made necessary by the fact of a wash-out on the Western Pacific, at Niles, which forced the overland passengers to return to San Francisco and come up by the Vallejo route. The V. & T. train waited here yesterday morning in order to make the usual connections.

The Last Scene.

Only a few persons witnessed the interment of the remains of J. W. Rover yesterday in the Catholic cemetery. The drama of life with him is over, and what a sad tragedy it has proven!

Complimentary.

We acknowledge the receipt of a complimentary ticket to a grand ball given at Elko on the 22d instant by Elko Encampment, No. 9, I. O. O. F.

BETTER rock than ever is being taken out of the Jones & Kinkead. Water has been struck in the bottom of the shaft. The shaft is down 370 feet, and it was the calculation to open the 400 foot level about the 10th of next month, but it cannot be done by that time now. The Jones & Kinkead is O. K.

The Ladies' Aid Society will meet at Mrs. McGee's, Fourth street, this afternoon.

To-morrow night the 48 boys give a ball for the purpose of buying a hose cart. Many have already purchased tickets, but there are plenty more. Be sure and aid the good cause along.

A NEW SENSATION!

GRAVE CHARGES AGAINST CHIEF BREEN OF VIRGINIA!

IS AH CHUEY IN PRISON?

We have given the fact of the arrest of Ah Chuey on a charge of killing a fellow countryman and then burn the Seminary washhouse to conceal the deed, one day last Fall. He was arrested in Virginia and in a day or two transferred to the Reno jail by Chief Breen—or at least such was his announcement. Officer Bradley, who made the arrest, when he saw the Mongolian in jail declared that he is not the one he arrested, but that a change has been made and Ah Chuey is now at liberty. The officers had suspicions that such a change would be attempted and did all they could to prevent it. Officer Bradley says he was offered a large sum of money at the time of the arrest to "jug" another in his place, but he would not be bribed, and Ah Chuey became a prisoner. It seems that in all well regulated companies there are Destroying Angels, whose business it is to kill anybody who may be in the way of a scheme of theirs—just like the Mormon Danties. Ah Chuey is not only one of these, but one in high authority. So it was very desirable to keep him from the clutches of the law, even if it was necessary to sacrifice a small fry on the altar of Justice. The case which is as to the identity of the prisoner, came before Judge Richardson yesterday afternoon at 1, and to accommodate Virginia parties, a further hearing was had at 9 o'clock last night. From the *Chronicle* we learn that on Sunday night Captain Byrne agreed to relieve the jailer of the night watch, and when going down to the jail was stopped on C street by a Chinaman who said that he had \$500 for him if he would allow Chuey to leave his cell and let another man take his place. He said the other man was at hand ready to act as a substitute, and if no harm came to the second Chinaman Byrne was to get \$500 more. The second \$500 was offered in the shape of a note collectible from the San Sing company when the substitute was liberated.

Tuesday a couple of Chinamen went to Justice Moses and informed him that they had seen Ah Chuey in Chinatown the night before, and that he had been liberated by Breen and Cowie, and another man substituted. This roused the suspicion of Justice Moses, and after a consultation with District Attorney Drake and officers Byrne and Bradley, it was determined to investigate the matter. Accordingly Tuesday night Ah Chung, the Chinaman who had identified Chuey in the city jail, was sent down with Officer Bradley to see if there had been any crookedness in Reno. District Attorney Drake accompanied them. Yesterday morning the following dispatches were sent from here to Virginia:

To *Quong Yen*:—The man here is not Ah Chuey. Ah Chung.
 Another dispatch reads as follows: To Capt. Byrne:—All wrong down here. Send Simpson down at once; tell Flannigan to make out warrants for the arrest of Breen and Cowie. DRAKE.
 The dispatch arrived too late for Simpson or the warrants to come down yesterday morning, but they came down last night.

Both Breen and Cowie have been held here until the question of the Chinaman's identity can be more thoroughly established by officer Simpson, who came down last night with all the documents he could get hold of. The law makes an offense such as is charged against Breen punishable by fine not to exceed \$1,000 and imprisonment not less than one year nor more than ten; also that he be held to answer for the crime of the liberated party as if he did the deed himself.

At 9 o'clock last night the examination was continued. District Attorney Cain for the State and L. F. Cowie for the defendant. Officer Simpson testified that he knew Ah Chuey, saw him in the Virginia prison, but that the prisoner in Reno is not the same person.

[The trial continued until such a late hour that we could not hold open to get the result.]

48 Ball.

To-morrow night the 48 boys give a ball for the purpose of buying a hose cart. Many have already purchased tickets, but there are plenty more. Be sure and aid the good cause along.

SACRAMENTO SAFE.

Vallejo Road Washed Away—Western Pacific All Right—No Wires—Weather Notes.

The news from Sacramento last night was to the effect that the levee on the Yolo side had broken, and the water in the river was falling and the city at large safe from flood. The Vallejo road has been washed away, but the Western Pacific is all right. From Dutch Flat west it was raining while east of Boca it was snowing, and southwest of Sacramento it was blowing a gale.

PECULIARITIES OF THE ROVER CASE.

After nearly three years of litigation, in which every hook and crook of the law has been brought to bear in behalf of the man who now sleeps his last sleep, it may not be uninteresting to note a few of the peculiarities of this trial. One is that the positive evidence—Rover swearing he saw the dead committed—gave way to purely circumstantial evidence—McWorthy not claiming that he saw anything, but drawing his entire course from a chain of circumstances. In the eyes of the law positive evidence takes high precedence over circumstantial, and yet here we have a noted exception to this rule. Another, Rover was granted four trials—twice on legal technicalities, and twice in this county to secure a verdict—our first trial resulting in a hung jury. No man charged with murder in the first degree has ever been accorded such an opportunity in Nevada before. A third is the Sheriff's Jury—summoned as a last resort to try and get the defendant from the noose. In fact this was so new that our lawyers had to study up their Blackstone to know how to proceed. Again, we fail to call to mind an instance of capital punishment in Nevada where the victim up to the last stoutly declared his entire innocence of the whole affair and denounced another. Again, no county ever protested the bills contracted by a change of venue, as Humboldt has those of Washoe in the prosecution of this case. These are a few of the peculiarities of this case.

So many law points have been advanced that the case has been put on the Statute Books of Nevada as an example case. We are all glad the unfortunate affair is at an end at last, though two men sleep in premature graves as a result of this very sad affair. May Nevada never have such another.

Bullion.

Last night 92 bars came down from the bonanzas; of these 58 were from the California valued at \$252, 107 20, and 34 from the Con. Virginia worth \$129,649 91. This makes the shipment for the fiscal month as follows:

CALIFORNIA:

February 13.....\$ 300,858 20

February 16..... 229,750 64

February 20..... 232,107 20

Total.....\$732,762 64

CON. VIRGINIA:

February 13.....\$ 100,362 00

February 16..... 219,500 01

February 20..... 129,49 91

Total.....\$149,642 52

\$100 Reward.

C. W. Jones offers a reward of \$100 for the arrest of the person who set fire to his barn, after saturating it with coal oil, night before last, the particulars of which we have already given. We learn that one man was seen running toward Chinatown just before the fire broke out. If the rascal could only be found!

We have no stock report for yesterday afternoon. Out of nineteen wires west of Sacramento not one has been working since yesterday noon.

In the District Court yesterday non-suit was entered in the case of Mayberry vs. Douglas & Hart.

HARRY NOYES was able to sit up yesterday. We are delighted to learn that he is out of danger.

To RENT.—A hard-finished house of five rooms. Inquire of Wm. H. Moe, corner of Lake and Second Sts.*

WORKMEN'S ORGANIZATIONS.—A workingmen's club has been organized in Cornucopia with J. B. Roseberry as President and J. F. Burner Secretary. A flourishing society of the same character is in existence in Tuscarora, and arrangements are being made for organizing another club at Elko. Austin is also moving in that direction, and several enthusiastic anti-Chinese meetings have been held in that town. One or two clubs have been organized in this county, and probably there are good many such organizations in the western part of the State, though, so far, the papers of that section have been silent on the subject.—*Winnemucca Silver State*.

At 9 o'clock last night the examination was continued. District Attorney Cain for the State and L. F. Cowie for the defendant. Officer Simpson testified that he knew Ah Chuey, saw him in the Virginia prison, but that the prisoner in Reno is not the same person.

[The trial continued until such a late hour that we could not hold open to get the result.]
